(EPP) Expanded Polypropylene

Expanded polypropylene (EPP) is an exceptionally eco-friendly, flexible and versatile plastic foam designed for lightweight, energy management and cushioning applications.

- EPP can be designed and molded to protect heavy-duty components like crankshafts, batteries, wheel rims and bearings.

- EPP manages thermal stability and provides impact protection.

- EPP cleans easily doesn’t absorb chemicals or oils.

- EPP is dimensionally stable for use in automated picking and placing operations.

- EPP can be designed to support thousands of pounds for heavy duty applications.
